Degustationsnotizen

As scintillating as this work of art and as brilliant as the nectar contained therein, the masterstroke lies in the reconciliation of conflict and contradiction, paradoxically combining poise and exuberance as well as playfulness and serenity in a captivating yet contemplative way, with a Zen-like focus. This is a collectible item for the true connoisseur. This rare single malt has a beautiful perfume of rich mango and pineapple with verdant smoky undertones. In the mouth, the texture is velvety with deep impressions of prunes and dried figs surrounded by a lovely intergration of peat. The finish is long and complex with hints of smoke and woodfire.
